PREFACE

Homeland Security is one of the special themes of the U.S. Army War College curriculum. *Homeland Security: A Selected Bibliography* was compiled to support that theme. It includes topics that reflect some of homeland security's many challenges: organizational structure, national security concerns, domestic preparedness, intelligence support, terrorism, and the military's role.

The majority of the books, documents, and periodical articles cited are dated 2003 to the present. For information prior to this period, please refer to the previous edition of *Homeland Security: A Selected Bibliography* (May 2003), compiled by Jacqueline S. Bey. All items are available in the U.S. Army War College Library collection or can be accessed on the Internet. The links to the web sites included in this bibliography were active as of May 2006. For your convenience, call numbers or Internet addresses were added at the end of each book or document entry. (Call numbers indicate the item's self location in our library.)

This bibliography is also available on the Internet through our Library's home page at <http://www.carlisle.army.mil/library>.

For additional information, please contact the Research and Information Services Branch, U.S. Army War College Library by sending an e-mail message to libraryr@carlisle.army.mil, or by phoning DSN 242-3660 or Commercial (717) 245-3660.
